

Will County Fair ACME Scramble Race and Demolition Free for All 2019 4 and 6 Cylinder Cars, SUVs, Small Trucks

Cars will remain ALL STOCK except where noted. If you have any questions regarding the rules, call for clarification. Do not assume that it will pass inspection. You can remove anything, but you can add NOTHING unless stated in these rules!

Vehicle Type: Any front or rear wheel drive, 4 or 6-cylinder hardtop automobiles, station wagons, SUVs, Mini Vans, small pick-up trucks (ex. Ranger, S10, Dakota, or B2300). If you have questions about whether or not your car will qualify as a small pick-up, please contact the head inspector. Please read the disclaimer for vehicles in demolition derby/free for all in the "Running" section below.

Preparation of car: *Must remain 100% stock.* Driver's door must be secured with seatbelts, chains, cables, or wires. If the doors come open, you will be disqualified from the race. It is highly recommended that the inside of the driver's door latches and any sharp edging be covered with some type of padded material. Hood latch must be removed per the fire department. Any 4 x 4 drive shafts must be removed or 4 x 4 must be disabled.

Glass: Must remove all door and back glass. You may keep stock windshield in place as long as it is in good condition. If you remove the windshield, you must protect the driver area by tying #9 wire from cowl to roof or similarly secured item. Door mirrors, exterior plastic, and trailer hitches must be removed. Vehicles must be clean of all broken glass and loose objects/trash, including trunk area, before arriving at fairgrounds. Remove all rear seats/decking in station wagons, SUV's and mini vans. Sun roofs must be covered.

Engine: The engine must remain stock for the make and model vehicle. No engine swaps.

Bumpers: Bumpers must be OEM for make, model, and year vehicle. **NO BUMPER SWAPS!** You cannot weld to the bumper nor to the bumper mounts at all.

Gas tanks: May stay in stock location of vehicle as long as they are not located behind the rear axle. Clarification: if the stock tank is located between the front axle and the rear axle, it is fine to leave it in that stock location. If the stock tank is behind the rear axle in trunk area, you must relocate it inside the car. Plastic tanks must be housed in a steel container or inside another container but cannot provide any support to the car body. Steel gas tanks are strongly recommended. Electric fuel pump shut off switch must be clearly marked and located within the driver's reach.

Paint: Trophy and a cash prize will be awarded to the best-looking vehicle. Winner will be chosen by fan applause. All vehicles must have large and bright numbers located on both front doors and on the roof (3 total). You may have a number sign secured to the roof. ***No profanity, political slogans, offensive or controversial wording or images allowed on vehicles or in pits.***

Running: This is a race/scramble which may have some obstacles present during the event. This year the obstacles may be changed in portions of the track. The first car that makes the required number of laps while following the rules wins. **ANY COMPETITOR PURPOSELY HITTING THE DRIVER DOOR OF ANOTHER VEHICLE WILL BE DISQUALIFIED.**

We will have several heats and then one feature event. We are paying top 2 finishers in each heat. After the FEATURE race is completed, cars may complete in a demolition derby/free for all. You **MUST** participate in the race to be eligible for the demolition derby/free for all.

**** To be fair and ensure the safety of all drivers, any SUVs, Mini Vans, and/or small pick-up trucks will NOT be able to participate in the demolition derby/free for all with the cars and station wagons. They can only participate in the scramble event. There is a derby classification slated for Saturday Night where SUVs, Mini Vans, and small trucks can derby. This event is contingent on a set number of entries (6+ required). **Pre-registration for the Saturday night derby is required by August 3rd**. If you are planning on bringing a SUV, Mini Van, or small pick-up on Friday, you can pre-register for free for the Saturday night event class. You will be able to keep your vehicle inside the track overnight if you decide to run on Saturday. The Saturday prize money will be discussed at drivers' meeting and will be contingent upon how many vehicles we have. In past years, the numbers for these classes have been dwindling. This was the best solution we came up with.**

Each required driver must fill out an entry blank. All drivers must supply their own cars, only one entry per person per class. Proof of ownership may be required on each car entered. All drivers 17 years of age or younger must have a notarized release signed by his/her parents or guardian. The track or promoter reserves the right to approve or reject any and all entries. All persons must sign the release form and receive a pit pass to be permitted in the pit area or on the track. No drinking of alcoholic beverages on track, emergency vehicle area, or in the pit area. Any driver or pit person under the influence of alcohol or drugs will be immediately disqualified and removed from the grounds.

Any driver or crew member disobeying the rules will cause his or her car to be disqualified. Unsportsmanlike conduct will not be tolerated and will be grounds for disqualification and barring from future derbies. Drivers are responsible for the actions of their crew members. No profanity allowed on cars. No political slogans. No offensive or controversial images.

Safety belts, DOT approved helmet, and goggles/safety glasses/face shields are required. Drivers must wear long sleeves and pants during competition. No shorts or tank tops.

Recommended but not required: You may add a door bar / safety cage for driver's protection. Maximum material dimensions of 4" round or square tubing material. Cage cannot go past the stock firewall and cannot go further back than 6" behind driver seat. Maximum of 4 total bars may be used (build a square). Bars cannot tie to roof nor floor/frame. Poorly constructed cages will not be allowed to compete. You can move the battery inside the car and secure it to the floor board or cage material. Windshield wipers can remain operational. Drivers may use defrost feature for windshield as well. A fire extinguisher can be within close reach of the driver's compartment.

JOE SNOW IS THE HEAD INSPECTOR

ANY questions, please call or text Jason at (815) 955-4319 or Joe at (815) 409-1579 after 6:00 p.m.

If you would like to compete in this event but are having trouble finding a car, call Jason at (815) 955-4319.
